## SUMMARY

Recent IT graduate and Full Stack Developer with practical internship experience. Skilled in building web applications using React, .NET, and Express.js. Experienced in designing databases, connecting APIs, and creating systems that support HR workflows. Ready to apply my technical skills to a full-time developer role.

## WORK EXPERIENCE

### Full Stack Developer Intern (TQM Insurance Broker)

| Jan 2026 – Apr 2026

- Developed a full-stack Candidate Pool management system using VS Code, React, and Express.js to replace manual Excel tracking for the HR hiring workflow.
- Designed database schemas with Microsoft SQL Server and managed data queries using DBeaver.
- Built the frontend for an intern Timesheet system using React, including conditional logic that gates task and clock-out inputs behind clock-in status, connecting it to Express.js APIs (tested via Postman) and a PostgreSQL database.
- Managed version control and team collaboration across all projects using GitLab and SourceTree.

## PERSONAL PROJECTS

### Concert Ticket Booking Website

| Aug 2025 - Nov 2025

- Developed a concert ticketing website in a team using Python (Django), SQLite, HTML, CSS, and JavaScript, building the interactive zone and seat selection maps, with a booking summary that updates as seats are selected.

### Movie Ticket Booking Website

| Jan 2025 – May 2025

- Built a movie ticketing website in a team using Python (Flask), HTML, CSS, and JavaScript, handling the date, cinema, and showtime selection flow, with a seat map that updates accordingly, and price calculation pages.

### Image Guessing Mobile Game

| Jan 2024 – May 2024

- Created an image guessing mobile game using Thunkable, building core features like a scoring system, health points (hearts), and a user-friendly interface.

## EDUCATION

### Sripatum University

| 2023 - 2026

Bachelor of Science in Information and Communication Technology

GPA: 3.55

## TECHNICAL SKILLS

- **Frontend:** React, HTML, CSS, JavaScript, Bootstrap
- **Backend:** .NET, Express.js (Node.js), RESTful API
- **Databases:** Microsoft SQL Server, PostgreSQL
- **Tools & Version Control:** VS Code, GitLab, SourceTree, Git, Postman, DBeaver, Figma
- **Other Platforms:** Thunkable

## SOFT SKILLS

- Cross-functional Teamwork
- Problem-Solving
